

MICHAEL BAKER, JR., INC.

PHONE CALL REPORT

PROJECT/LOCATION: Site 30 RT - MCB

S.O. No.: 19160

Camp Lejeune, NC

DATE: 11-9-93

CONTRACT NO.: _____

To: Patrick Waters From: Rich Rowelli

Repres.: NC DEHR - Solid Waste Repres.: Baker

Phone No.: (919) 733-4996 Phone No.: _____

Subject: Downgradient monitoring wells at Site 30

Baker had received comments through LANTON on project Plans for OU# 7
NC DEHR was concerned that only 1 downgradient well was to be sampled
during the RT.

I contacted Patrick Waters at NC DEHR regarding his comment. He
decided that "quick" turnaround soil samples will be used to determine
if any additional downgradient ^{wells} would be required. Accordingly, if
these samples indicate contamination, additional downgradient
wells will be installed. This information will be stated in Final
Project Plans.
