COMMENTS

SUMMARY OF CONVERSATION

Called (for his boss, John Lank) regarding status of containers at Lot 203. I advised him that there had been no change in status and that the following actions were in progress:

- a. obtaining of a contract for removal of containers, packaging and turn in to DRMO
- b. evaluation of health and safety hazards, (if any) posed to personnel working in adjacent areas of Lot 203
- c. determination of applicability of Section 1910.120 of Title 29 of the CFR to any activities in Lot 203 and cleanup of the barrels suspected DDT.

Mr. May acknowledged that this activity should ascertain applicability of any OSHA standards prior to initiating sampling or cleanup. Mr. May's inquiring was from a RCRA point of view subsequent to a call received from Jerry Parks, North Carolina Division of Health Services. Mr. May indicated it was unlikely he would be further involved with this matter.
