Re: Federal Facility Agreements Under CERCLA Section 120

Dear Mr. Wilms:

As discussed during your telephone conversation with Ms. Sheila Ashton of this Command on April 8, 1989, a meeting to discuss the enclosed Draft Federal Facility Agreement for Marine Corps Base Camp Lejeune has been scheduled for Wednesday, April 26, 1989, at 0830 in the Officer's Club, Paradise Point, Building 2615, Marine Corps Base, Camp Lejeune.

The draft agreement, which serves as the interagency agreement required by the Superfund Amendments and Reauthorization Act (or SARA), contains the model provisions as negotiated between the Department of Defense and U.S. Environmental Protection Agency.

We are planning to have a no-host cafeteria-style lunch at the O'Club should discussions necessitate an afternoon session.

We look forward to your participation throughout the agreement process. The point of contact for Atlantic Division, Naval Facilities Engineering Command with regard to the Installation Restoration Program at Camp Lejeune is either Ms. Sheila Ashton, Environmental Engineer, who may be reached at (804) 445-1814, or Mr. Steve Anderson, Counsel, at (804) 444-9307. The point of contact at Camp Lejeune is Mr. Bob Alexander, who may be reached at (919) 451-3034 with questions you may have concerning the meeting arrangements.

Sincerely,

P. A. RAKOWSKI, P.E.
Head, Environmental Programs Branch
Utilities, Energy and Environmental
Division
By direction of the Commander
